Backend Developer with experience working on Java and Spring Boot based backend applications, REST APIs and microservice architecture. Experienced with Node.js backend development and building full-stack applications with Next.js and React.js. Hands-on with Docker, Git/GitHub and database-driven applications.

EDUCATION

• Bachelor of Technology in Information technology	2020–24
Anna university chennai CGPA: 8.2	
• INTERMEDIATE	2019
SMT. Udasi devi +2 high school Akhalaspur, Kaimur percentage: 79.2%	
• MATRICULATION	2017
Central English school kabirganj Sasaram bihar CGPA: 10	

TECHNICAL SKILLS AND INTERESTS

Areas of Interest: Web Design and Development, Software Development

Core: Object-Oriented Programming, Data Structures & Algorithms, Problem Solving

DevOps & Tools: Docker, Git, GitHub, Postman, IntelliJ IDEA, VS Code, Eclipse

Databases: MySQL, MongoDB

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, Material UI

Backend: Java, Spring Boot, Spring MVC, REST APIs, Microservices, Node.js, Express.js

Languages: Java, JavaScript, TypeScript

PROFESSIONAL EXPERIENCE

- **Tata Consultancy Services (TCS) — Software Developer | SSBT Project** (may 2025 –current)
 - Worked for 6 months as a React.js Developer, developing reusable UI components, integrating REST APIs and implementing frontend features.
 - Currently working as a Java/Spring Boot Backend Developer, developing REST APIs and backend services using Java, Spring Boot and microservice architecture.
 - Worked on feature development, bug fixing, API integration, debugging and end-to-end delivery across application modules.
- **Zoho corporation (Software developer intern)**
 - Worked on **Java-based backend development and full-stack application development** in a team environment.
 - Developed and integrated **backend functionality, REST APIs and database-driven application features** using Java.

PERSONAL PROJECTS

- **Tech-Blog (Java Project)**
 - A website for sharing a knowledge regarding proper fields.
 - Facilitating users to share a post, comment in a proper field.
 - Technology Used : Html, Css, Bootstrap, Servlet, Jsp, Mysql
 - Github link : https://github.com/avushchaubey17/Tech_Blog
- **Travell — Multimodal Transit & Navigation Platform**
 - Built a multimodal transit and navigation platform using Next.js, TypeScript, Node.js, Express.js and MongoDB.
 - Implemented GTFS-based transit data ingestion and versioning, normalizing stops, routes, trips and transfer data for efficient querying.
 - Developed a Dijkstra-based journey planner supporting fastest, cheapest, balanced and fewest-transfer route optimization.
 - Integrated Leaflet/MapLibre with Valhalla and OSRM for road routing, route visualization, GPS tracking, off-route detection and rerouting.
 - Technology Used: Next.js, React.js, Node.js, TypeScript, Express.js, MongoDB, Docker, Git, GitHub, gRPC
 - Live link: <https://travell-rho-six.vercel.app>
- **My School — School Management ERP**
 - Built and integrated backend REST APIs for school-related modules and application workflows.
 - Implemented a microservice architecture to separate core modules and improve scalability and maintainability.
 - Developed a full-stack school management system using Next.js on the frontend and Node.js on the backend.
 - Built a multi-tenant School ERP using Next.js, Node.js, TypeScript and MongoDB with a microservices architecture.
 - Designed an API Gateway-based architecture with gRPC communication between backend services.
 - Developed complete Exam Management workflow covering configuration, participation, scheduling, seating, attendance, marks, result calculation, publication, admit cards and report cards.

- Implemented centralized result calculation, role-based access and tenant isolation across school data.
- Developed reusable Next.js components and optimized frontend using Server/Client Component architecture.
- Added automated testing for business logic, gRPC handlers, tenant isolation and examination workflows, with 80+ Academic Service tests passing.
- Live: <https://myschool-dun.vercel.app/>

ACHIEVEMENTS

- | | |
|--|------|
| – Infosys completed full stack development course and certificated for mongodb,React.js, Node.js | 2022 |
| – HackerRank Certificated and badge earn for problem solving skills and java | 2024 |
| – Engaged with GeeksForGeeks, a leading platform for coding practice and completed 280 codes. | |
| – Actively engaged with Leetcode, a leading platform for coding practice and completed 150 codes | |
